

POWER CIRCLING

速克立股份有限公司

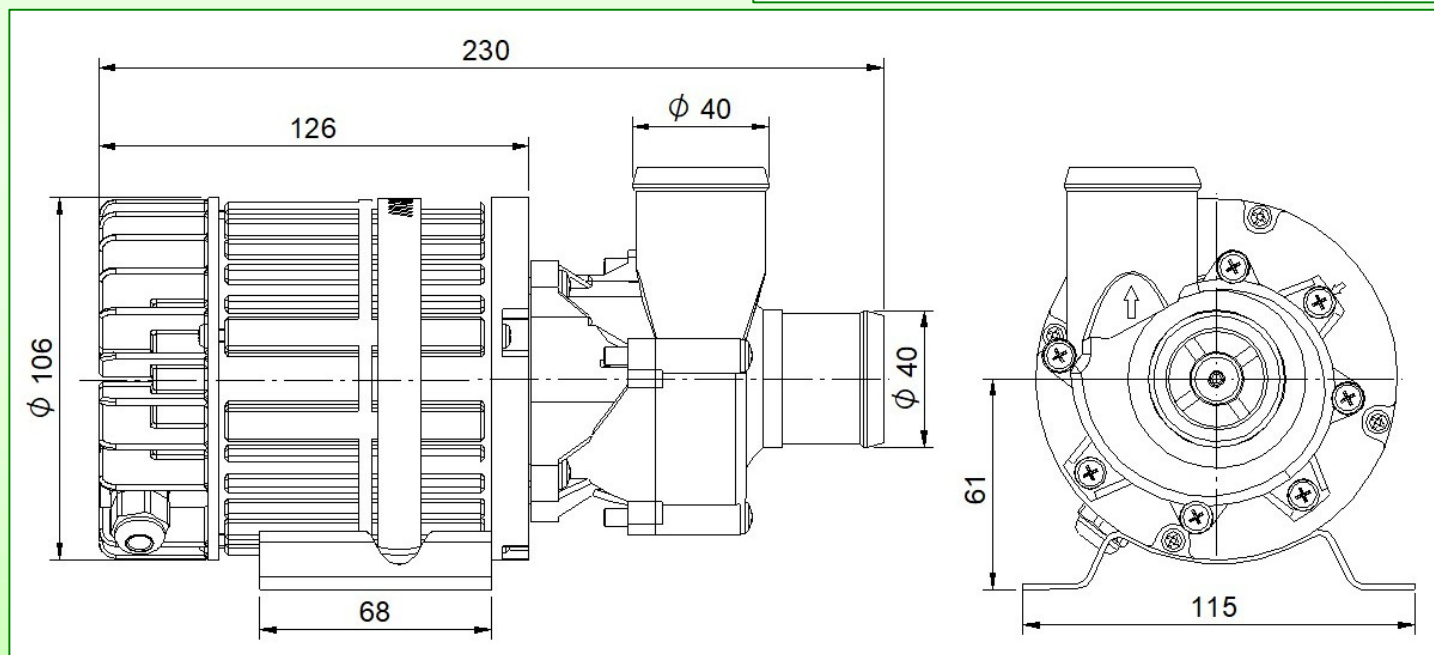

直流無刷循環泵浦

Brushless DC Circulating

★ IP68 ★

防水型

Waterproof

磁石耦合式 Magnetic Coupling

- IP68 操作於戶外或直接沉入水中，長時間使用，安全無虞。

IP68: Operate outdoors or submerge directly in water, safe for long-term use.

- 低電壓 DC12V/24V 無觸電危險，對人體完全無害。

Low voltage DC12V/24V, no risk of electric shock, completely harmless to the human body.

- 磁石耦合，馬達心軸與水（液體）徹底隔離，無酸鹼腐蝕問題，更持久耐用。

Magnetic coupling completely isolates the motor shaft from water (liquid), eliminating acid and alkali corrosion issues and making it more durable.

直流無刷循環泵浦

Brushless DC Circulating

產品特色 Features

- ◎溫升低、經久耐用 Low temperature rise, durability and long life.
- ◎效率高、節省能源 High level of efficiency and energy-saving.
- ◎可靠度極佳、壽命長 Excellent reliability and long life.
- ◎低噪音、可速控 Low noise, speed controllable.
- ◎免碳刷維修、無污染

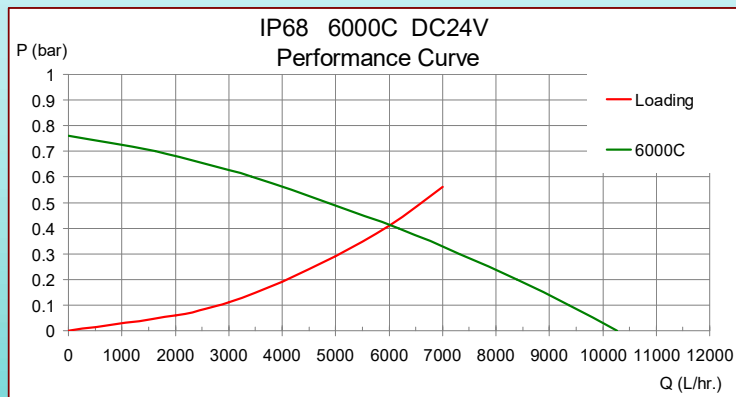

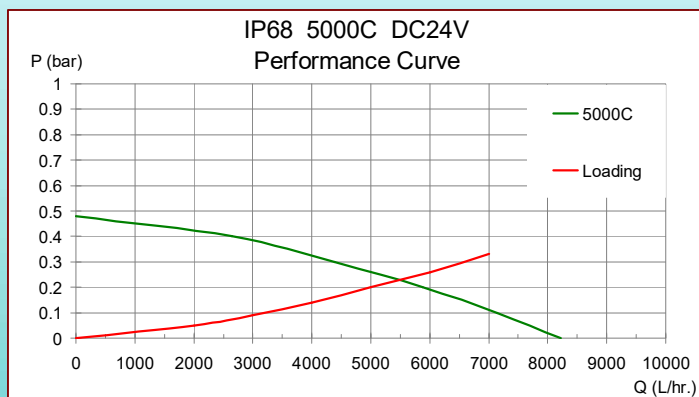

No carbon brush maintenance required, no pollution.

- ◎100%台灣研發、設計、製造

100% design and manufacturing in Taiwan.

保護機能 Motor protection

- ◆極性保護 Polarity protection
- ◆堵轉保護 Locked rotor protection
- ◆過電流保護 Over current protection
- ◆柔性起動保護 Soft start Protection
- ◆全密閉防水型 Fully enclosed waterproof type

型號 Model	電壓 Vdc	電壓範圍 Range Vdc	電流 A	瓦特 W	輸出 Output	備註 Note
P047D024-032C	24V	16 - 32V	3.7	89	0.2 bar / 5500 L / hr.	IP68 5000C
P047D024-033C	24V	16 - 32V	6.6	158	0.4 bar / 6000 L / hr.	IP68 6000C
